1. Qualitative Information Regarding the Current Interim Financial Results

(1) Explanation of Operating Results

During the current interim consolidated fiscal year, the Japanese economy remained on a recovery trend as consumption trends picked up, thanks in part to wage increases at various companies and the effects of various policies. However, the outlook remains uncertain, with the yen continuing to weaken, and geopolitical risks such as the prolonged Russia-Ukraine situation and the Israel-Palestine situation causing soaring raw material and energy prices, as well as price hikes that exceed wage increases.

In the food service industry, the economy is on a recovery track thanks to the expansion of inbound consumption and an upturn in consumer trends, but the business environment remains tough due to rising raw material and energy prices and continued cost increases caused by labor shortages. In addition, rising prices have led to consumers focusing on saving money and lifestyle changes have led to the creation of diverse values.

In this environment, based on our company motto of "our customers' joy is our joy," we have been working on Creation of robust existing stores, Growth investment, and Sustainability as the pillars of our management strategy, and customer numbers and average amount spent per customer have remained steady.

On the other hand, the gross profit margin in the conveyor belt Sushi business decreased by 0.9% compared to the same period last year due to the impact of rising raw material prices, especially for tuna and salmon.

During the current interim consolidated fiscal year, revenue was 36,965 million yen (2.0% increase compared to the same period last year), operating profit was 539 million yen (27.8% decrease compared to the same period last year), ordinary profit was 564 million yen (27.4% decrease compared to the same period last year), and interim profit attributable to owners of parent was 471 million yen (25.2% decrease compared to the same period last year).

Next, we would like to report an overview of each business segment.

< Conveyor belt Sushi business >

Our company management strategy

Amid a tough business environment characterized by continuing price hikes and an escalating diversification of values, our company aims to realize our company motto and to enhance revenue , contribute to the sustainable development of society, and improve our corporate value by focusing on three pillars of our management strategy: ① Creation of robust existing stores, ② Growth investment, and ③ Sustainability.

① Creation of robust existing stores

We recognize that enhance the profitability of existing stores is important for sustained improvement of its corporate value, and is therefore promoting the following initiatives.

1) Increased frequency of visits

We are responding to diverse consumer needs through sales of products in line with seasonal events, campaigns offering luxurious prizes by lottery, fairs limited to production areas that allow customers to experience the feeling of traveling, expansion of high-value-added products that are different from everyday use and an expansion of lunch sets starting from 594 yen including tax (limited to some stores), etc. In addition, we are promoting this information through a renewed app that is easier to use and LINE at some stores.

At our stores, we focus on nurturing sashimi-cutting masters and service meisters who will promote the improvement of sashimi-cutting masters and service masters techniques, thereby working to continually improve our NPS® (Net Promoter Score) ratings and enhance the value of our customer experience.

2) New customer acquisition

We have been working on price appeal through fairs such as offering a wide variety of carefully selected toppings for 100yen (110yen including tax) and fairs where we offer "Tuna (lean) Nigiri" in 25% larger slices than usual at the same price. We have also differentiated ourselves by developing original products that are not available from other companies, such as "Kappa Gunkan" where the Sushi rice is wrapped in "cucumber" instead of seaweed, and "TSUKIMI IKURA®", a golden-colored salmon roe that is also used in

first-class in-flight meals on airlines. We have also been disseminating information about these products through television commercials and social media.

Other initiatives aimed at attracting customers with diverse values include selling Seafood Ankake Ramen & Creative Sushi overseen by "NISHIBUCHIHANTEN", a famous Chinese restaurant in Kyoto that is quite popular and not so easy to book, and chestnut sweets overseen by Equilibre, a company run by a world-renowned pastry chef, and running collaborative campaigns with popular content such as Crayon Shin-chan and Wonderful Pricure!.

In addition, during the current interim consolidated fiscal year, new lead signs were installed in 38 stores to enhance visibility of the stores and opening hours were extended at some stores to create more opportunities for customers to visit, and the effect of increasing revenue has been confirmed in each of these initiatives.

3) Capital investment

Regarding capital investment, we renovated four stores during the current interim consolidated fiscal year, bringing the total investment in renovating existing stores to 20 stores. In the renovated stores, we have introduced high-speed lanes for ordering, automated guide systems, self-checkout registers, "smartphone ordering" that allows customers to use their own smartphones instead of touch panels, and lockers for takeout orders, strengthening our services to improve customer convenience and reduce labor at stores.

② Growth investment

We are working to grow our business by reviewing our store portfolio to match customer demand and by making capital investments that will lead to improved customer satisfaction and productivity.

1) New store openings

In the past, our company mainly opened stores on roadside locations, but in order to respond to changes in the nation's demographics, we are optimizing our store locations by opening stores in front of train stations in the three major metropolitan areas and closing and relocating unprofitable stores. As a result of opening three new stores during the current interim consolidated fiscal year, the number of stores at the end of the current interim consolidated fiscal year was 290. In addition, we have already completed contracts to open three new stores in the future.

2) DX · AI utilization

During the current interim consolidated fiscal year, we introduced new automated guidance systems to nine stores (total of 275 stores) and self-checkout registers to five stores (total of 234 stores) in an effort to improve customer convenience and store productivity.

3 Sustainability

Based on our company motto, "Our customers' joy is our joy," our basic policy as a bearer in the food infrastructure is to contribute to the sustainable development of society and to increase our corporate value.

1) Contribution to Global environment, Local communities and Society

We have established a new category called "Sustainable Menu" and have been selling sustainable food products such as the fully farmed Kurose yellowtail, the land-farmed KOTOURA GRAN SALMON, and "TSUKIMI IKURA®" (cherry trout roe) as well as soy meat. Especially, cherry trout roes are produced using a rare, sustainable aquaculture method that links the sea and the mountains, were established by the venture company Smolt, which was founded by researchers from Miyazaki University, and make use of the university's research seeds. We have also worked to reduce food waste by selling products that use all of the Sushi ingredients that are cut up in the store every day. In some stores, we have installed chargers for electric vehicles in the parking lots and air transport fans to improve air conditioning efficiency and reduce power consumption, promoting contributions to the global environment by reducing CO2 emissions.

2) Human capital investment

We are working to improve employee motivation by implementing 6% wage increase, conducting employee engagement surveys, and implementing an action plan to continuously improve scores. We have also established a DEI (Diversity, Equity & Inclusion) Promotion Committee, which will hold seminars by external lecturers and develop and implement a roadmap for promoting DEI (Diversity, Equity & Inclusion) in an effort to secure excellent human resources.

In addition, we are also working to enhance our hierarchical and career advancement training, which had been stalled due to coronavirus, and are promoting the development of the next generation of human resources, from part-time workers to directors.

As a result of the above, revenue for the conveyor belt Sushi business increased 3.7% year-on-year to 30,315 million yen.

< Delicatessen business>

In the Delicatessen business, we absorbed the increase in costs such as raw materials and labor costs by revising and eliminating products and passing on the increase to prices, but revenue decreased due to a decline in consumer confidence caused by the rise in food prices in general. In the dessert business, revenue progressed smoothly, and we secured a 26.9% increase in revenue compared to the same period last year. In order to recover revenue, we will develop products that meet consumer preferences, mainly with female developers, as part of our activities to promote the participation of women in the workforce, and aim to capture demand. In terms of food safety, all factories are FSSC22000 certified, a food safety system, and we will strive to improve our performance based on a thorough quality control system that provides safe and secure products to customers.

As a result of the above, revenue for the Delicatessen business were 6,649 million yen (down 5.3% from the same period last year).

(2) Explanation of Financial Position

①Assets, liabilities and net assets

(Assets)

Total assets at the end of the current interim consolidated fiscal year amounted to 31,694 million yen, an increase of 1,502 million yen compared to the end of the previous consolidated fiscal year. This was mainly due to an increase of 1,236 million yen in cash and deposits, a decrease of 503 million yen in accounts receivable, an increase of 433 million yen in machinery and vehicles, and an increase of 363 million yen in tools, furniture and fixtures.

(Liabilities)

Total liabilities at the end of the current interim consolidated fiscal year were 21,342 million yen, an increase of 1,259 million yen compared to the end of the previous consolidated fiscal year. This was mainly due to an increase of 1,510 million yen in long-term borrowings and long-term borrowings due within one year, and a decrease of 290 million yen in corporate bonds and corporate bonds due within one year.

(Net assets)

Net assets at the end of the current interim consolidated fiscal year amounted to 10,351 million yen, up 243 million yen from the end of the previous consolidated fiscal year. This was mainly due to an increase in retained earnings due to interim net income attributable to owners of parent of 471 million yen, despite a decrease due to dividends of 246 million yen from surplus.

2 Cash flows situation

Cash and cash equivalents (hereinafter referred to as "funds") at the end of the current interim consolidated fiscal year increased by 1,236 million yen from the end of the previous consolidated fiscal year to 9,174 million yen (7,937 million yen at the end of the previous consolidated fiscal year), as a result of an increase of 1,666 million yen in cash flow from operating activities, a decrease of 658 million yen in cash flow from investing activities, and an increase of 228 million yen in cash flow from financing activities.

(Cash flows from operating activities)

Net cash provided by operating activities was 1,666 million yen (1,182 million yen in the same period of the previous year).

This was mainly due to interim profit before taxes and other adjustments of 537 million yen and depreciation expenses of 1,119 million yen.

(Cash flows from investing activities)

Net cash used in investing activities was 658 million yen (1,242 million yen used in the same period of the previous year).

This was mainly due to expenditures of 551 million yen for the acquisition of property, plant and equipment and expenditures of 76 million yen for security and guarantee deposits.

(Cash flows from financing activities)

Net cash provided by financing activities was 228 million yen (1,328 million yen in the same period of the previous fiscal year).

This was mainly due to proceeds from long-term borrowings of 2,500 million yen, expenditures for repayment of long-term borrowings of 990 million yen, expenditures for redemption of bonds of 290 million yen, expenditures for repayment of installment payables of 741 million yen, and expenditures for dividends paid of 245 million yen.

(3) Explanation of Consolidated Earnings Forecast and Other Future Forecast Information

There are no changes to the consolidated earnings forecast for the full fiscal year announced in the "Consolidated financial results for the fiscal year ended March 31, 2024" on May 9, 2024.

(4) Notes on Interim Consolidated Financial Statements

(Notes on Interim Consolidated Balance Sheet)

(Contingent liabilities)

(Litigation, etc.)

Hama Sushi Co., Ltd. filed a lawsuit against the company in the Tokyo District Court on December 27, 2023, seeking payment of 511 million yen in damages. Future developments may affect our future consolidated earnings, but as it is difficult to reasonably estimate the amount of the impact at this time, it has not been reflected in our interim consolidated financial statements.

(Notes on Interim Consolidated Statement of Income)

*Litigation-related losses

The Company was indicted on suspicion of violating the Unfair Competition Prevention Act, and received a judgment from the Tokyo High Court imposing a fine of 30 million yen on the company in that lawsuit. Based on that judgment, the company has recorded a litigation-related loss as an extraordinary loss.

2. Difference between the total amount of profit(loss) of reportable segments and the amount recorded in the interim consolidated statements of income and the main details of the difference (items related to difference adjustment)

(Unit: Millions of yen)

Profit	Amount
Total of reportable segments	507
Elimination of inter-segment transactions	32
Operating profit on interim consolidated statement of income	539

(Notes on Significant Changes in the Amount of Shareholders' Equity) Not applicable.

(Notes on the Going Concern Assumption)

Not applicable.

(Significant Subsequent Events)

(Business combination through acquisition)

At the Board of Directors meeting held on September 30, 2024, the company resolved to acquire shares of KAPPA-CREATE KOREA CO., LTD. and make it a subsidiary, and based on that resolution, acquired shares on October 1, 2024. As a result, the company has become a consolidated subsidiary of our company.

- 1. Overview of the business combination
- (1) Main reasons for the business combination

With the aim of concentrating management resources on the domestic conveyor belt sushi business and achieving further growth, on March 30, 2018, we transferred KAPPA-CREATE KOREA CO., LTD. to REINS international inc. which was conducting overseas business within the COLOWIDE GROUP. However, we have now resolved to fully enter the rapidly growing overseas conveyor belt sushi business, and this transfer will enable us to expand the business structure we have cultivated to date both domestically and internationally, and achieve corporate growth in the overseas conveyor belt sushi business as well.

In addition, we have also acquired the receivables of 163 million yen and trademark rights of 0 million yen that REINS international inc. has lent to KAPPA-CREATE KOREA CO., LTD.

(2) Name of the counterparty company and its business activities

Name of the company: REINS international inc.

Business description: Restaurant operations, food processing and sales

(3) Date of business combination

October 1, 2024

(4) Legal form of business combination

Acquisition of shares for cash

(5) Name of the combined company

No changes.

- (6) Voting rights acquired 80.0%
- (7) Main reasons for deciding on the acquiring company

This is due to the company acquiring shares with 80.0% of the voting rights in exchange for cash.

2. Acquisition cost of the acquired company and breakdown by type of consideration

Acquisition consideration	Cash	0 million yen
Acquisition cost		0 million yen

3. Details and amounts of major acquisition-related costs

Advisory fee: 1 million yen

4. The amount of goodwill incurred, the cause of its occurrence, the amortization method, and the amortization period

This has not been determined at this time.

5. Amounts and main breakdown of assets received and liabilities assumed on the business combination date

This is not confirmed at this time.
